

SmartGuard™ Electronic Evidence Lockers

SmartGuard™
SECURE ASSET CONTROL

powered by

Products

SmartGuard™ Electronic Evidence Lockers provide temporary storage of evidence going into and coming out of the property room, with complete 'Chain of Custody' reporting. Self-service kiosk offers secure unattended drop off and pick up of evidence, saving time and resources. Reports by case number, officer, and date ensure solid chain of custody reports to use in court. SmartGuard's Electronic Evidence systems offer identity protected access via biometric finger print (BACS™ Systems), or LCD-keypad with card swipe (Access.it® Systems). Additional options include: barcode or RFID reader, rear door for pass-thru, refrigeration units and multiple locker size configurations.
